PREPARING FOR THE FUTURE OF WORK

Leverage strategic workforce planning

- 1 Conduct **strategic workforce planning**
- 2 Establish **strategic skills mapping** within jobs
- 3 Close **management knowledge gap**

Source: Towards a Reskilling Revolution: Industry-led Action for the Future of Work, Boston Consulting Group and World Economic Forum.

Shape the future talent pipeline

- 1 Develop targeted **reskilling** programs
- 2 **Upskill** on a large scale
- 3 Harmonize the **skilling landscape**
- 4 Align **educational curricula** with skills needs

Optimize talent ecosystem conditions

- 1 Rethink **organizational structures**
- 2 Transform **culture** to attract and retain next-generation talent
- 3 Develop a culture of **lifelong learning**
- 4 Boost **diversity**

The adoption of automation, along with technologies such as artificial intelligence (AI) and the Internet of Things, is likely to unleash profound structural shifts in the UK workforce – which will be amplified by other megatrends such as the ageing population.

As a result, demand for occupations such as managers, technology specialists and health professionals could rise by nearly 20 percent by 2030

Desired Path

The Future

By 2030, two thirds of the UK workforce could be lacking in basic digital skills, while more than 10 million people could be under-skilled in leadership, communication and decision-making skills.
